

# Our commitment to ecosustainability

- ▶ Filatura Papi Fabio s.p.a. has always paid attention to respect for the environment and has made ecosustainability its strenght and business philosophy

RESPECT FOR  
THE  
ENVIRONMENT

# OUR STEPS TOWARDS ECOSUSTAINABILITY

- ▶ -PURCHASE OF RECYCLED PACKAGING AND PACKAGING WHICH CAN BE RECYCLED
- ▶ -CARDBOARD USED FOR OUR BOXES AND SHELVES FOR BOXES COMES FROM FSC CULTIVATIONS
- ▶ -PHOTOVOLTAIC PANELS SYSTEM IN OUR COMPANY HEADQUARTERS
- ▶ -COOPERATION WITH COURRIER, WHO USE SAF (SUSTAINABLE AVIATION FUEL)
- ▶ -WE HAVE JOINED ROADMAP 4sustainability®
- ▶ -WE CHOOSE OUR RAW MATERIAL SUPPLIERS ALSO ON THE BASIS OF THEIR COMMITMENT IN TERMS OF ENVIRONMENTAL PROTECTION

# ECOSUSTAINABLE PACKAGING

- ▶ 80% ecosustainable cardboard boxes
- ▶ 100% ecosustainable cardboard shelves for boxes
- ▶ 100% ecosustainable cardboard cones
- ▶ Recycled europallets
- ▶ Plastic bags for cones, which can be recycled

# CARDBOARD FOR OUR PACKAGING, WHICH COMES FROM FSC CULTIVATIONS (FOREST STEWARDSHIP CUNCIL)

Cardboard used for our boxes  
and shelves for boxes

comes from FSC cultivations

(FOREST STEWARDSHIP  
CUNCIL),

which means this international  
certification aims at

the correct management of

forests and traceability of  
derived products

# PHOTOVOLTAIC PANEL SYSTEM IN OUR COMPANY HEADQUARTERS

# FILATURA PAPI chooses DHL EXPRESS

**FILATURA PAPI FABIO** is concretely committed to reducing the CO<sub>2</sub> emissions of its shipments by using sustainable aviation fuel.

This is why we have chosen DHL Express as our partner, with whom we share a desire to make more sustainable choices.

Our shipments travel with the DHL GoGreen Plus service. We are committed to reducing the impact of logistics operations through the use of SAF (Sustainable Aviation Fuel), the sustainable aviation fuel which, when blended with conventional fuel, reduces emissions up to 80%\*.

\*Jet fuel based on CORSIA baseline prescribed by SBTi. SAF LCA values based on ICCT data, assuming full lifecycle emissions from Used cooking oils, and vegetable oils derived from plants

# OUR COMPANY HAS JOINED ROADMAP 4sustainability®

- ▶ Our company has started a cooperation with 4sustainability®, with the aim to have a more respect for the environment, at this purpose we have joined below important matters:
- ▶ 4s CHEM elimination of toxic and harmful chemical substances from production cycles
- ▶ 4S PLANET conscious use of resources to reduce environmental impact

ID Nr. 4S-100606

## COOPERATION WITH RAW MATERIAL SUPPLIERS WHO TAKE CARE OF PLANET ECOSUSTAINABILITY

- ▶ Ecosustainability is more and more becoming a topic of vital importance, that is why our company has decided to focus its energies on it
- ▶ In this regard the need to choose raw material suppliers also basing on their sensitivity in terms of planet respect and protection
- ▶ Some of our major partners have engaged themselves in CO2 compensation projects, planting oaks trees and other types of plants and investing in renewable energy

# OUR TARGETS

- ▶ WE ARE GOING TO BUY «GREEN ENERGY» (CLEAN ENERGY) STARTING FROM JULY, IN ORDER TO REDUCE CO2 EMISSIONS AND TO LOWER SIGNIFICANTLY SCOPE 2 , WITH THE AIM TO REDUCE COMPLETELY THESE EMISSIONS WITHIN 2027
- ▶ EVALUATING THE POSSIBILITY TO JOIN COMPENSATION PROJECTS (INVESTMENTS IN RENEWABLE ENERGY) WITHIN 2027-2028, IN ORDER TO COMPENSATE SCOPE 1
